

*Spring... a time of renewal and a perfect opportunity to renew your commitment to a healthy smile!*

In a single environment for virtually **every dental need**, care includes:

- ✓ **General dentistry** - periodic check-ups and cleanings to prevent problems; tooth repair or extractions (*including wisdom teeth*); treatment of irritated gums and cold/canker sores; root canals
- ✓ **Tooth replacement** - crown and bridge; dental implants (*all phases, including placement*); dentures and partial dentures
- ✓ **Cosmetic dentistry** - porcelain veneers; crowns; whitening; bonding; inlays and onlays; gum reshaping (*for "gummy smiles" or crown lengthening*) through our dental laser
- ✓ **Sedation dentistry** - Optimal relaxation through oral or IV sedation (*twilight sleep*) as well as additional comfort options always included
- ✓ **TMJ Therapy** - neuromuscular measures diagnose and treat problems associated with jaw joint disorders
- ✓ **Periodontal Therapy** - treatment of gum disease at most stages
- ✓ **Snoring/Sleep Apnea Therapy** - restful sleep restored through custom-contoured oral appliances

Comprehensive care in a single location helps to minimize appointments and treatment time. Here, patients of all ages are cared for by a single team with a unified commitment to optimal comfort and treatment outcomes.

We appreciate each and every patient and **THANK YOU** for allowing us to care for your smile!

**New patients welcome!**

We are always happy to welcome new smiles, especially those that come from the recommendations of patients.

Please invite others to meet us through brief videos on:
